MAKES PROPOSAL TO SETTLE SUIT

SUGAR COMPANY WANTS ANTI-TRUST SUIT SETTLED BY AGREED DECREE

CASE IN COURT FOUR YEARS

Department of Justice Officials, It Is Understood, Decline to Accept Proffer.

(By Associated Press.) WASHINGTON, Nov. 5.—The American Sugar Refining Company has made another proposal to the department of justice to end the government anti-trust suit against it and to settle the question of its alleged monopoly of sugar production by an agreed decree such as recently was made in the New Haven railroad civil case.

Although department of justice officials declined to discuss the proposal it was understood here tonight that James M. Beck, counsel for the company, made the proffer and that it was declined. It was said that the fact that the case is now in the courts and that a decision may be expected shortly figured in the refusal. It is not known here just how far the company was willing to go in meeting the department's demands, but it was understood that it would not agree to all those set forth in the government's prayer for a dissolution.

This is not the first time that negotiations have been set afoot to bring this case to an end with resort to the long way through the federal courts. About a year ago there was an effort to bring about a compromise but it proved unsuccessful just as the present proposal.

The case against the alleged trust was begun about four years ago when suit was filed under the Sherman act in the federal court in New York city.

It was directed against the American and other companies, thirty in all, with an aggregate capital of \$230,000,000 and the alleged control of a large part of the sugar output of the country.

The government charged in its complaint that the combine was able to fix prices arbitrarily, that it suppressed competition, ground rivals out of existence and that it violated the law in many ways. Railroad rebates and customs frauds were mentioned as devices to these ends. The bill alleged that the combination controls about 72 per cent of the output of sugar.

President Wilson to Take Vacation

(By Associated Press.) WASHINGTON, Nov. 5.—President Wilson, to secure a few days of rest, today cancelled all engagements until next Tuesday. The regular cabinet meeting for tomorrow was called off, and the President planned to spend as much time as possible playing golf and taking automobile rides.

It was generally expected that the President would leave Washington for a short vacation after the election, but no vacation plans have yet been made. Mr. Wilson believes he should remain here because of unsettled conditions in Europe and Mexico.

The President will soon begin consideration of the five appointments he is to make in December to the new trade commission. Several Democratic congressmen who failed of re-election want positions on the commission. Representative Palmer, defeated for re-election to the Senate from Pennsylvania, and Commissioner of Corporations Davies are being mentioned as possible members.

NO ROOM FOR THIRD LEAGUE

Owners of American League for Peace, But End to Baseball War Is No Nearer.

(By Associated Press.) CHICAGO, Nov. 5.—Club owners of the American league here today put themselves on record for peace, but brought no nearer an end the baseball war. Rumors that overtures had been made to the Federals were denied. The only discussion of the Federal situation lasted but half an hour. In that time everyone of the eight clubs' representatives declared for peace, but it was the general opinion that peace can be reached only by absorption of the Federal league, not through its recognition.

"There is no room for a third league," they agreed, and the elimination of competing clubs in Chicago, St. Louis and Brooklyn must be included in any truce terms.

As for the New York club, Frank Farrell, its president, arrived just as the meeting broke up, and declared emphatically to newspaper men that the Yankees are not for sale. It was said, too, the discussion of a proposed transfer had taken place in the meeting, but the desire of the league for better conditions in New York was admitted.

Except that some of the clubs had as many as forty men on their payrolls and could not dispose of them because of fear of the Federal league, there was no reason found to warrant recognition of the federals, the club owners said. Plans for distribution of extra players among the minor leagues in a way to assure they not being signed by the Federals will be left to President Johnson and minor league owners at the Omaha meeting.

Manager Mack, of the Philadelphia club, refused to make a formal charge against Manager Jennings, of Detroit, accused of giving out the news of waivers being asked on Plank, Bender and Coombs. Mack said he had buried the hatchet. The charge that Manager Griffith, of Washington, had informed the Boston Braves of the Athletics' "weakness," contributing to the defeat of his own colleagues, was not taken seriously.

CLEARING HOUSE CERTIFICATES GREATLY REDUCED IN AMOUNT

(By Associated Press.) WASHINGTON, Nov. 5.—Clearing house certificates issued in large cities of the country after the outbreak of the European war have been greatly reduced in amount, according to a statement tonight by Comptroller of the Currency Williams.

"Reports from all portions of the country," said the statement, "indicate an emphatic relaxation of financial tension, an increasing supply of loanable funds, and steady and uninterrupted progress towards normal conditions."

In New York the clearing house loan certificates already have been materially reduced and are being gradually retired. Charleston and Columbia, South Carolina, report none issued. Buffalo, Savannah and Nashville none outstanding.

MAKING DESPERATE EFFORTS TO PREVENT INCREASE IN FOOD PRICES

(By Associated Press.) VENICE, via Paris, Nov. 5. (10 p. m.)—Both the Austrian and Hungarian governments are making desperate efforts to prevent further increase in food prices.

The Austrian minister recently directed that after December 1 bread shall contain not more than seventy per cent of rye or wheat flour and the remainder to consist of barley, maize or potato meal. The decree prohibits exchanging stale white bread at the bakeries or returning this bread.

To prevent the wasting of flour the government has ordered mills to restrict the quantity of the finest grade because the milling of these products a smaller percentage of flour than to coarser grades.

In Hungary the government's effort to restrain landed proprietors, who are said to be demanding exorbitant prices for grain have failed. The ministry has warned farmers that steps will be taken to import flour from America. Meanwhile military authorities have requisitioned large quantities of flour, paying considerably below the market value for it. As a consequence the grain trade in Hungary is at a complete standstill.

As the military must have some flour soon, the situation is becoming acute.

NEGOTIATIONS ARE REACHING A SUCCESSFUL CONCLUSION

(By Associated Press.) WASHINGTON, Nov. 5.—Although there were no further conferences at the treasury today on the foreign exchange situation, it became more apparent that negotiations between the representatives of the English government and the federal reserve board are reaching a successful conclusion.

Sir George Paish and Basil B. Blackett, the English representatives, probably will see Secretary McAdoo and the board again tomorrow and some definite announcement may follow.

Officials said today that reopening of the London and New York Stock exchanges was not a purpose of the conferences, but it became known that this question is considered of vital importance in connection with the foreign exchange problem.

It is fairly well established in the minds of officials here that the New York exchange will not reopen until after January 1, and it has been the idea in many quarters that the London exchange will not reopen much sooner. There is every prospect that there will be a further understanding when the exchanges open as to the scope of transactions to be permitted.

It was pointed out today that reopening of the exchanges depends on a large degree on a restoration of normal conditions both here and in England. How near normal English finance may be is hard for officials three thousand miles away to determine but their close watch of reports of how the English government is financing the war and protecting banks and the whole structure of English credit has led some of them to believe that nearly the usual situation obtains.

Thirteen States Have Prohibition

(By Associated Press.) CHICAGO, Nov. 5.—Fourteen States now have laws prohibiting the sale of alcoholic beverages as a result of Tuesday's election on the face of tonight's returns, which show that prohibition was adopted in Arizona, Washington, Oregon and Colorado. The states which prohibit the sale of liquor are:

Arizona, Georgia, Kansas, Maine, Mississippi, North Carolina, Oregon, Tennessee, Washington, West Virginia, North Dakota, Oklahoma and Virginia.

The Alabama legislature at one time passed a prohibition bill, which was enforced for a time and later repealed. A constitutional amendment was defeated. South Carolina is largely so under various acts. A score of States have local option laws.

Bank Officials Sentenced. WHEELING, W. Va., Nov. 5.—M. B. Summers, formerly cashier of the First National bank of West Union, W. Va., and C. B. Martin were sentenced today to serve five years in the penitentiary by Federal Judge A. G. Dayton on a charge of embezzling \$30,000 of the bank's funds. The men were associated together in a brokerage business.

Concedes Election to Britt. ASHEVILLE, N. C., Nov. 5.—Congressman Judger's campaign manager today formally conceded the election of J. J. Britt, Republican candidate for Congress from this 11th district. The election of Mr. Britt breaks the solid Democratic delegation from this State to Congress. Mr. Britt's majority will range around 700.

Make Your Dollars Do Their Full Duty

Mr. Power reports that his campaign of advertising in the local papers, in which he has advertised "Specials" at special prices has gotten quite a nice increase in business.

This is as it should be; if times are half as bad as some people claim they are, then it will pay all to "shop first in the local papers," and then take your money where it will do the best work for you.

Nine times out of ten—the store which advertises goods, prices and service gives the best value in goods, prices and service.

Haven't you found this true?

It is as much the business of the housewife to help save money in the economical spending of the money, as it is the duty of the husband to earn the money in the first place.
